[ESTABLISHED 1852]

F. LEYPOLDT, EDITOR AND PUBLISHER, 31 AND 32 PARK ROW, NEW YORK.

Entered at the Post-Office at New York, N. Y., as second-class matter.

VOL. XXIV., No. 3.

NEW YORK, July 21, 1883.

WHOLE No. 600.

THE LARGEST OLD BOOK-STORE IN AMERICA. *School-Book Department.*

We are, without exception, the largest retail dealers in Old School-Books in the United States. We buy large quantities, and our buyers, in order to get the books we want, very often have to take a great many others in the lot that are not salable here. These we will sell at low prices, as they are of no use to us, and, while we do not say we can supply all you want, we think it would pay you to send us a list, and if we have them they will be sold at a Bargain. No stamp is required for an answer. We answer all letters received.

EDUCATIONAL BOOKS

PUBLISHED BY

A. C. ARMSTRONG & SON,

714 BROADWAY, NEW YORK.

NOW READY, TENTH EDITION.

ARMSTRONG'S PRIMER OF UNITED STATES HISTORY,

FOR SCHOOL AND FAMILY USE,

*With 6 New and Beautifully Colored Double-page Maps, from Original Drawings.**One vol., Square 16mo, cloth. Price, 50 cents.*

"A model historical primer, full in its statements, discriminating in its selection of events, clear and direct in its style, and comprehensive in its general outline of American affairs. The value of such a book is apparent at a glance. Of large histories of the United States there is no lack, but of shorter histories there is great need. A work of this character, thoroughly trustworthy in its statements, is of almost equal importance to the young student and to the general reader. It represents an amount of work of which its brief pages give no adequate impression. To condense, and yet to omit nothing essential to the complete statement of events, requires the fullest command of the subject and the most intelligent understanding of the mutual relations of all the facts involved."

☞ Sample copy, with a view to introduction, sent postpaid on receipt of 35 cents.

SUPLEE'S TRENCH ON WORDS.

On the Study of Words. By RICHARD CHENEVIX TRENCH, D.D., Archbishop of Dublin. Arranged for Class-Book, from the latest revised English edition. *With an exhaustive Analysis, additional Words for Illustration, and Questions for Examination,* by THOMAS D. SUPLEE, Head Master of St. Augustine's College.

"Trench's Study of Words" has long been a well-known and favorite study, though but poorly adapted heretofore for school use. In its new arrangement it must prove more acceptable than ever. 1 vol., 12mo, 400 pages, net price, \$1. Also JUST READY, an entirely new edition (*without the Suplee matter*) from the last English edition, revised, of TRENCH ON THE STUDY OF WORDS. 1 vol., 12mo, 303 pages, net price, \$1.

☞ Copies of either edition, with a view to introduction, sent postpaid on receipt of 75 cents.

WHITE'S STUDENT'S MYTHOLOGY.

A COMPENDIUM OF

Greek, Roman, Egyptian, Assyrian, Persian, Hindoo, Chinese, Thibetan, Scandinavian, Celtic, Aztec, and Peruvian Mythologies, in accordance with standard authorities.

Arranged for the use of Schools and Academies. By C. A. WHITE, author of "White's Classical Literature," etc. A practical work, prepared by an experienced teacher, and designed for pupils who have not yet entered, or who, like the greater number of those attending our female academies, are not likely to enter, upon a regular classical course. 12mo, cloth, \$1.25.

☞ Sample copy, with a view to introduction, sent postpaid on receipt of 75 cents.

A NEW AND CHEAPER EDITION OF

MAY'S CONSTITUTIONAL HISTORY OF ENGLAND,

Since the Accession of George III., 1760-1860. With a new Supplementary Chapter, 1860-1871.

By THOMAS ERSKINE MAY. 2 vols., crown 8vo, cloth. **Price reduced to \$2.50.**

This work is substantially a continuation of Hallam's great work, tracing the progress and development of the British Constitution of more than an entire century. It gives evidence of research and impartiality, and is highly commended by historical critics.

THE UNABRIDGED STUDENT'S HALLAM.

For the use of Colleges and Schools. *Furnished at a liberal discount for Text-Books.*

1. THE MIDDLE AGES. A View of the State of Europe during the Middle Ages. The revised and corrected edition. 3 vols. in 2. Retail price, \$2.50.

CONINGTON'S ÆNEID.

The Æneid of Virgil. Translation rendered into English Octosyllabic Verse, by the Rev. JOHN CONINGTON, late Professor in the University of Oxford. Crown 8vo, extra cloth. Net price, \$1.50.

"This translation of the Æneid has been universally admitted the most attractive. It has gained preëminence by its novelty, the singular felicity of its diction, its constant animation and great variety united with consummate scholarship in its remarkable fidelity to the nicer shades of meaning in the original."

A NEW AND IMPROVED EDITION (PRICE REDUCED) OF THE

BRYANT AND STRATTON BUSINESS ARITHMETIC.

A new work with Practical Problems and Valuable Tables of Reference, designed for Business Men, Commercial, Agricultural and Scientific Colleges, Normal and High Schools, Academies and Universities. By H. B. BRYANT, President Chicago Business College; G. G. WHITE, M.A., and C. G. STOWELL, M.A. 1 vol., 8vo, cloth, 464 pages. Net price, \$1.50.

"In presenting a new edition of this work in the present improved form, it is believed that its real value will become more widely known and appreciated.

"The increasing interest in its peculiar features has led to a most critical revision, and we now make a few emendations that render the entire work more perfect than any former edition."—*New Preface.*

Special terms for Introduction. Catalogues and Descriptive Circular sent on application to Armstrong & Son.

Cassell's French Dictionary.

FRENCH-ENGLISH AND ENGLISH-FRENCH. Compiled from the best authorities of both languages by Professors DELOLME and WALLACE and HENRY BRIDGEMAN. Revised, corrected, and considerably enlarged from the Seventh and Latest Edition (1877) of the Dictionary of the French Academy, by Professor E. ROUBAUD, B.A. (Paris).

Extra Crown 8vo, 1152 Pages, \$1.50.

This new edition of CASSELL'S FRENCH DICTIONARY, the popularity of which has been attested by the sale of upward of 120,000 copies, has undergone a thorough and complete revision. It is corrected according the Latest Edition of the Dictionary of the French Academy, 1877, and not only contains the 2200 new words introduced into that work, but several hundred in addition, making a total of nearly 3000 new words. Many new features are introduced which are not found in any other existing Dictionary, rendering it the cheapest, yet most complete, extensive, and, so far as modern spelling is concerned, the only thoroughly accurate Dictionary of the French language published in this country.

The Shakespeare Reading-Book.

Being Seventeen of Shakespeare's Plays abridged for the Use of Schools and Public Readings.

By H. COURTHOPE BOWEN, M.A., author of "Studies in English," "Simple English Poems." Crown 8vo, 432 pp., cloth extra, \$1.25.

"It is of the highest importance that pupils, while being trained in the art of reading well, should become acquainted with the very best models in both prose and poetry which the language affords—graduated, of course, to suit the age and proficiency of the learner. The plays which the author has embodied in this well-printed and illustrated book are those most likely to interest the young, and which are adapted, by the character of their contents, for their study. The author has marked the words in all doubtful passages which require emphasis, and those syllables which require accent, in order to guide and help the reader."—*Journal of Education*.

Price for Introduction on application. Copies will be sent by mail, prepaid, on receipt of advertised price.

The Story of English Literature.

By ANNA BUCKLAND. 1 vol., large 12mo, 530 pages, \$1.50.

An elegant volume, finely written, suitable alike for the student and the library.

"The knowledge and information is imparted in pleasant, easy style, and the selections are pointed and well made."—*New York School Journal*.

"To Miss Buckland's credit it must be said she has set a needed example before the makers of these manuals; she has taught them the necessity of doing more than record dates and enumerate titles if they would create any vital interest in the works they treat of."—*New York Times*.

Physical Science.

A Text-Book of Physical Science. (Intermediate.) By F. H. BOWMAN, D.Sc., F.R.A.S., F.L.S. Illustrated, \$1.50.

It embodies the latest scientific researches, and contains an accurate and philosophical account of the present condition of the physical sciences in all branches, enabling its reader to follow the advance continually being made in the application of science to the arts and uses of every-day life.

"A Work of immense utility, both an Encyclopædia and a Dictionary."

The Encyclopædic Dictionary:

An Entirely New and Exhaustive Work of Reference to all the Words in the English Language, with a Full Account of their Origin, Meaning, Pronunciation, and Use. **With numerous illustrations.** To be completed in about twelve divisional volumes.

Price, \$3 per Volume.

This work will form a complete Dictionary of the English Language, giving the etymology of each word, and its proper pronunciation, its definition, and its various significations. In addition to this, certain subjects will be treated in the exhaustive form more specially characteristic of an Encyclopædia. The present work will contain several hundred words not included in any other English Dictionary, while the definitions given and the examples quoted are the result of original research and independent study.

"As its title shows, it is professedly both an Encyclopædia and a Dictionary; it explains things as well as words, and thus the author has ample scope to produce a work of immense utility. To judge from the first volume, the 'Encyclopædic Dictionary' promises to take a high place as a reference-book. The author has had the assistance of specialists in the technical part of the work, and the authorities he has obtained to assist him have almost always been the best obtainable. The illustrations are always appropriate and clear."—*The London Times*.

FOUR VOLUMES ARE NOW READY. SOLD BY SUBSCRIPTION ONLY.

SPECIMEN PAGES of the Encyclopædic Dictionary will be forwarded without charge to any address on application.

THE AMERICAN EDUCATIONAL CATALOGUE FOR 1883.

[PUBLISHERS' PRICES.]

Compiled by G. D. T. ROUSE.

NOTICE.—In this Catalogue only prices made by publishers themselves are given—retail if retail, in first column; “net” (wholesale), if “net,” in second column; where a “mailing” percentage is specified by the publisher, the “mailing price” is given in the retail column marked with an asterisk (*), in addition to the wholesale price. When price-columns are left blank, the publisher failed, on application, to furnish price. A double asterisk (**) in price-columns designates books forthcoming. New books, issued since the publication of the Catalogue of 1882, are designated by a single asterisk (*) before title.

In comparing prices or ordering at retail, private buyers should bear in mind that a percentage must be added to prices quoted at wholesale, to cover freight, handling, delivering, etc. Discounts on quantities to schools vary on different lines, according to the kind of prices adopted by the respective publishers.

For subject classification (and for collective references to classic authors entered here under separate editors), see the second part of the Catalogue, following this main alphabet.

NEW.

NEWCOMB'S MATHEMATICAL COURSE.

From the last Yale College Catalogue, under "Sheffield Scientific School."—"For preparation in Algebra and geometry the recently published text-books of Professor Newcomb on this subject (Henry Holt & Co., New York, 1881) may, without indicating undue preference, be especially recommended. And to the candidate who prepares in other works, they may serve to indicate the extent and kind of attainments expected in the prescribed topics. Candidates who prepare in the geometry of this author may, for the present, omit the short chapters on the Ellipse, Hyperbola, and Parabola; though they will find it advantageous to study them."

The Trigonometry and College Algebra are now in use in this Institution.

From the Cornell University Register for 1882-83, under "Requirements for Examination."—"In Mathematics, Solid Geometry and Conic Sections, as much as is contained in Newcomb's Elements of Geometry; Advanced Algebra, as much as is contained in Olney's University Algebra, or in Newcomb's Algebra."

Appletons' Readers

Were the first school publications that fully recognized the advanced position and new demands of the teacher's profession, and that embodied in a perfected form the

Modern Educational Ideas

which, in the intellectual activities of the age, were demanding higher and better expressions, in harmony with the prevailing spirit of progress and improvement.

The fact that in all the series of Readers that have been issued since the publication of Appletons'—and they are numerous in consequence—the distinctive features which have made the Appleton series the standard and

Preferred Text-Books of Reading in this Country

have been imitated is the strongest evidence of their acknowledged superiority and merit.

APPLETONS' READERS are not machine-made books, but are the carefully shaped results of long and intelligently conducted work in the school-room by the

Most Eminent and Successful Educators

in the country, from whose convictions and necessities these books were evolved.

Among the distinguishing features which are philosophically developed and effectively applied in APPLETONS' READERS, and which have been enthusiastically approved by every progressive teacher, are the following:

LANGUAGE LESSONS AND LANGUAGE STUDY as the basis of correct mental growth.

WORD AND SENTENCE ANALYSIS, with composition, and study of *word-meanings*, introducing a variety of script exercises.

WORD AND PHONIC METHOD combined, which has been demonstrated to be the best way of teaching reading and correct enunciation.

LITERARY EXCELLENCE of the reading exercises, and the *suggestive notes* for a better conception of the author's language, as illustrated in the higher books.

BEAUTY OF ILLUSTRATION, regarded both artistically and educationally, and as an important auxiliary aid to instruction.

APPLETONS' READERS

ARE COMPRISED IN A SERIES OF

FIVE BOOKS, WITH SPELLER COMBINED.

For full particulars of unusual interest, please send for the *Illustrated Edition of "Educational Notes,"* new series, just published, and *mailed free* to teachers and school-officers.

MODERN CLASSICS.

Thirty-two small volumes, containing many of the best Short Stories, Essays, Sketches, and Poems in modern literature, including selections from the most celebrated authors of England and America, and translations of masterpieces by Continental writers.

In several instances the selections from an author are accompanied by a critical or biographical essay from another eminent author, an arrangement which cannot fail to lend greater interest to both portions of the book and add materially to its value for use in schools.

Teachers will readily see the fitness and availability of these books for Supplementary Reading. The list is as follows:

The American Educational Series.

This well-known and popular series embraces a large number of the most widely approved Text-Books in use in the public and private schools in this country. The list contains many old favorites, books which have stood the test of years, and which still retain a leading place in our schools, while no other series is so full of the freshest products of the best authors of the present day.

It is this quality of **progressive conservatism** which makes the old and standard **American Educational Series ALWAYS FRESH AND NEW.**

Among the standard publications of this series we would call attention to

I.

SWINTON'S READERS.

An entirely new series of School Reading-Books, by Prof. WM. SWINTON.

These books are preëminently **Language Readers.**

They present a most complete development of the study of words and sentences as an essential condition of good understanding and correct reading.

The illustrations are by the most eminent American artists: Church, Dielman, Fredericks, Pyle, Harper, White, and others, and were drawn expressly for these books.

I. Swinton's Primer and First Reader.

—In print and script exercises. The script exercises are a specially attractive feature, being white on black, as in blackboard and slate work, the script being the result of careful experiment in securing a practical style of letter for this sort of work. Another noticeable feature of this book is the type, which was made for us, and which is unlike any other font of type heretofore cut, in the matter of size and face. Handsomely illustrated, and bound in cloth. One volume, 120 pages.

II. **Swinton's Second Reader.**—In print and script exercises. This is also a beautiful book, and commends itself especially for its grading, for the purity and sweetness of its literary form, and for the development of "language work." Illustrated and bound in cloth. 176 pages.

III. **Swinton's Third Reader.**—Presenting many new and original features. Noticeable for the charming series of original lessons entitled "Home Pets," "Bright Examples," and "About Plants." Illustrated and bound in cloth. 240 pages.

IV. **Swinton's Fourth Reader.**—A book of choice selections for this important grade, carefully edited and arranged. It contains also many useful and entertaining original lessons, especially on "Useful Knowledge," and "Pictures of American History," Illustrated and bound in cloth. 384 pages.

V. **Swinton's Fifth Reader and Speaker.** This book contains abundant exercises in language, reading, recitation, and declamation. An instructive and entertaining original feature is the series of lessons under the title of "Glimpses of Science," presented in the highest form of literary art. Illustrated and bound in cloth. 480 pages.

**** Sample pages and full descriptive circulars, by mail, to teachers and elocutionists.*

**** A set of the Readers, from the First to the Fifth inclusive, sent to any teacher or educationist on receipt of \$1.75.*

II.

MANSON'S WRITING SPELLERS

On a new and excellent plan, giving models of correct writing on every page to correct errors and mistakes.

III.

SWINTON'S MODEL BLANKS.

In eight numbers, covering every grade of the school course, from **Primary Script Spelling to Latin Etymology.**

IV.

WHITE'S INDUSTRIAL DRAWING.

This admirable series of text-books and manuals is now practically complete, and embraces the following:

I. **A Primary Course**, consisting of a set of Primary Drawing-Cards, Drawing-Books, Dotted Slates, and Exercise-Books, developing the system simply and perfectly.

II. **A Grammar and High School Course**, consisting of a set of **six** books in Free-hand Drawing; **two** Exercise-Books for Practice in Dictation Drawing, etc.; **two** Books in Geometrical Drawing; **two** books in Perspective Drawing; **two** books in Model and Object Drawing; and **two** in Projections and Designs.

III. **An Advance Course**, consisting of a complete series of lessons in Ornamental, Landscape, and Instrumental Drawing. In this course are also included two entirely new and original works:

1. **The Theory and Art of Model and Object Drawing;**

2. **The Theory and Art of Designs.**

**** Both books are of great interest to teachers and art students, and are appropriately and handsomely illustrated.*

IV. **Manuals for Teachers**, including Dictation Lessons; Teacher's Assistant, Teacher's Guide, Part I. (for Primary Course); and Teacher's Guide, Parts II. and III. (for Grammar and High School Courses).

V.

SWINTON'S GEOGRAPHIES.

"The famous two-book series," consisting of

I. **Introductory Geography**, in Readings and Recitations, and

II. **Grammar-School Geography**, Physical, Political, and Commercial.

The Geographies are fresh and progressive in character, and meet with great favor everywhere.

The Grammar-School Geography is published in six different editions, treating the local geography of different sections.

1. **New England Edition**, containing supplement of thirty-three pages, with special text and maps, for the New England States.

2. **Middle States Edition**, with special supplement of thirty-one pages, for the Middle States and the District of Columbia.

3. **Southern States Edition**, with supplement of thirty-seven pages, for the Southern States.

4. **East Central States Edition**, with supplement of thirty-three pages, for the East Central States.

5. **West Central States Edition**, with supplement of thirty-eight pages, for the West Central States and the Territory of Dakota.

6. **Pacific States Edition.** In preparation.

VI.

HUGHES' NEW WALL MAPS.

Prepared expressly for School Use under the personal supervision of WILLIAM HUGHES, F.R.G.S. (late Professor of Geography in King's College, London), whose name is of itself a passport to the accuracy and merit of any work on Geography. The NAMES are introduced with great judgment, and free from the common fault of overcrowding. The physical features are boldly and distinctly delineated, and the political boundaries are carefully colored. They are adapted to any series of Geographies, no keys being required.

Mounted on strong Cloth, with Rollers, Colored and Varnished. Size uniformly 54 x 68 inches.

The Dictionary of Education and Instruction:

A Reference Book and Manual on the Theory and Practice of Teaching, for the use of Parents, Teachers, and Others; based upon the *Cyclopædia of Education*. By HENRY KIDDLE and A. J. SCHEM. With a Select List of Educational Works, English, French, and German, arranged by Prof. W. H. PAYNE. Third Edition. 332 pp. 12mo. Cloth. \$1.50.

This book is intended not only for the teachers of all classes, but also for parents and all others interested in Education; its low price assists in its very extensive circulation. It will ever be a standard book.

The Cyclopædia of Education. Third Edition, Revised to 1883.

Kindergarten Publications, in English and German. — Text-books for the study of

German. AHN-HENN. AHN-FISCHER. AHN-EHLSCHLEGER. AHN-GRAUERT. SCHLEGEL.

French. AHN-HENN. SCHLEGEL.

Latin. AHN-HENN.

The AHN-HENN German, French, and Latin Methods are fast and deservedly gaining ground everywhere, especially in Public Schools and Academies, because, while being thorough, they are easier than other Methods, and an excellent preparation for the large and scientific grammars used in colleges. Twice as much well-grounded work can be accomplished within a given time by the use of these books as with any others. — Catalogues and Specimen-pages sent free on application.

German Text-books in all Departments.

Calisthenics and Gymnastics. WATSON.

In addition to these publications of their own, E. STEIGER & Co. offer a very large Stock of

Imported German Publications in Education, and all other Departments.

RECENTLY PUBLISHED:

Meservey's Book-keeping. Single Entry, for Grammar Schools.

It is admitted that every person should be able to record properly any common business transaction. To meet the wants of those pupils whose school-days are limited, the simpler forms of book-keeping should be taught in the *Grammar School*.

In response to the often expressed wish from Teachers of Grammar Schools for the Single-entry part of MESERVEY'S BOOK-KEEPING for use without the expense of the Double-entry part, this book is prepared.

It contains a full treatment of Single-entry. The rules are few and simple, the explanations ample.

Teachers will find no difficulty in explaining, and pupils no trouble in understanding it.

Though recently published, it has been adopted in many important places, for use in the Grammar Schools, as Boston, Lowell, Newton, Somerville, Springfield, etc., and it has become a very successful text-book.

For a more extended treatment of Book-keeping for High Schools and Academies, attention is called to the author's larger work.

Meservey's Book-keeping. Single and Double Entry, for High Schools and Academies, which is very popular, and is used very extensively in the High Schools of the most prominent cities and towns in New England and the West.

 Copies mailed for examination on receipt of, for Single and Double Entry, 50 cents; Single Entry, 40 cents. Blanks are published to accompany the books.

Stone's History of England. By A. P. Stone, Superintendent of Schools, Springfield, Mass. Fully illustrated with maps, etc. Designed as a text-book for those who desire a course of moderate extent.

It gives prominence to features of social life and progress, the condition of the people, etc. It is prepared by the author with great care, and will be found a text-book of great value.

Sent for examination on receipt of 40 cents.

Essentials of Geometry,

BY

ALFRED H. WELSH, A.M.,

Late Professor of Mathematics in Buchtel College, author of "Development of English Literature and Language."

The demonstrations are simple and direct, yet vigorous. Hypothesis, conclusion, and proof are sharply discriminated. The conditions given and the result sought are put before the student in pointed terms, enabling him to see the proposition translated into the language of the figure. The steps of the argument are briefly and perspicuously exhibited in their true sequence. There is constant care to economize mental energy for concentration upon the reasoning. The cuts are large and distinct, the notation brief and uniform, the typography remarkably clear. The expedients, algebraic and typographical, employed to express the terms, relations, and operations of the science, give great condensation as well as perspicuity.

The aim has been to construct a thoroughly intelligible manual, neither too elementary nor too voluminous, that should embody the latest developments of the science and the most approved methods of instruction in this country and in Europe.

The retail price is \$1.50.

A specimen copy for examination will be mailed, postpaid, to any teacher on receipt of \$1.

THE Literary News.

AN ECLECTIC REVIEW OF CURRENT LITERATURE,

Published monthly, and containing the freshest news concerning books and authors; lists of new publications; reviews and critical comments; characteristic extracts; sketches and anecdotes of authors; courses of reading; bibliographical references; prominent topics of the magazines; prize questions on choice books and other literary subjects, etc., etc.

The *Literary News*, since its establishment under the name of *The Literary Bulletin*, in 1868, has passed through many transformations in appearance and method before acquiring the distinctive features which have given it a character of its own, and which have become so familiar to thousands of readers. In substance it has been the same since its inception—"a monthly record of current literature;" but while primarily fulfilling its mission in the interests of the book-trade, it has since [the establishment of the *Publishers' Weekly*, which now so thoroughly covers that ground, aimed more directly to meet the wants of readers and students.

Its plan is to present each month a full survey of current literature, by means of brief reviews and notices, sketches of authors, lists of books of the month, etc. The reviews and book-notices are confined to the best books of the day, and are quoted only from recognized literary journals. Their selection is made with an aim not merely to guide by a praise of books, but to awaken an interest in subjects worth studying and authors worth knowing, by giving what throws most light on authors and books in their relation to life and literature. The entertaining elements are chiefly the Prize Questions, of which two or three are given almost every month, and the "Literary Miscellany." Of special interest to the student are the "Cues," which give (1) references to sources of reading on topics of the day; (2) a classification of the magazine contents; (3) references to the latest authority, as soon as recognized, on any subject of general interest; (4) references to bibliographies of subjects of general interest, to approved reading courses, and to anything written in the interest of reading and study.

A complete index, by authors, titles, or subjects, makes the annual volumes accessible for permanent reference.

Terms, \$1 per year. Specimen copies sent on application. Address

F. LEYPOLDT, Publisher,

31 & 32 Park Row, New York.

"A neat, conveniently arranged, and cheap miscellany of book-news, which will be found well worth its cost to the bookbuyer, large or small. One of its best features is the giving of helpful extracts, at considerable length, from prominent books, and from the more important reviews of them."—*Sunday-School Times.*

"It is almost equally impossible for most persons to read all the new books and publications, and the criticisms on them to be found in the best journals and reviews. There is therefore special value in the field occupied by the *Literary News*, a monthly which selects the most reliable and readable notices of the latest publications, and is consequently a very trustworthy and interesting guide to current literature."—*N. Y. Evening Mail.*

"Continues to bring us the latest and best criticisms on new books, prominent authors, and leading magazines. In addition to the "Prize Questions" published in every number (which alone render the periodical a prize in itself), a very valuable feature of late issues has been the two pages devoted to 'Cues to Timely Topics.' In these we have a select grouping, by titles, of magazine articles relating to the various topics of art, education, science, sport, etc., beside other topics of timely interest. Each number contains a rare literary *melange*—a delight to all lovers of books."—*Educational Weekly.*

THE Library Journal.

Official Organ of the American Library Association.

GENERAL EDITOR: CHARLES A. CUTTER,
Librarian Boston Athenæum.

THE LIBRARY JOURNAL was established in 1876 by the co-operative efforts of the leading librarians on both sides of the Atlantic. Its chief object is to be a practical help to the every-day administration of both large and small libraries, and to effect a saving by enabling library work to be done in the best way, at the lowest cost. The Journal especially meets the needs of the smaller libraries, offering them the costly experience and practical advice of the largest. In refraining from doing imperfectly what is done so well by the several journals specially devoted to antiquarian or purely historical interests, the LIBRARY JOURNAL is enabled to give its chief attention to modern bibliography and current literature, as represented particularly in its departments of "Bibliography" (proper), "Library Economy and History," "Anonyms and Pseudonyms," and the "Library Purchase-List."

Two important new features, that will render the LIBRARY JOURNAL more generally useful, have been introduced during 1883:

1. A monthly index to the current numbers of (fifty-six) leading American and English periodicals, compiled, on the co-operative plan of Poole's "Index," by a number of librarians, and edited by William I. Fletcher, the associate editor of Poole's "Index."

2. A department of "Literature for the Young," consisting of a list of new books suitable for the young, with citations of authorities, and of notes and suggestions, from various sources, on reading and the best use of books. This department is edited by Miss C. M. Hewins, Librarian of the Hartford Library Association, and author of "Books for the Young," well known among librarians as one of the most efficient workers in this special field of literature.

Published monthly. Price of subscription, \$4 per annum. Sample copies furnished on application. Address

31 and 32 PARK ROW, NEW YORK.

"This excellent journal increases in interest as it proceeds."—*Antiquary* (London).

"Should take its place upon the desk of every librarian and every collector of books, to whom it will furnish more than one useful help."—*Journal des Débats* (Paris).

"Would save money and time wherever libraries are begun. The whole science of handling books to the end of their best popular use is expounded in its pages with the knowledge which comes by experience."—*Literary World* (Boston).

"I consider the *Journal* one of the most valuable aids to librarians ever undertaken. I do not see how a librarian can venture to undertake his responsibilities without it. Every library, whether public or private, that spends \$200 annually on its administration cannot pay out \$5 with more advantage to itself than by taking the *Journal*."—JOHN EATON, Commissioner of Education.

"The larger libraries, of course, all subscribe for the *Library Journal*. I cannot see how any small library can do without it. I am receiving a dozen letters a week from small libraries asking me questions which have been answered fully in the *Library Journal*. My custom is to answer briefly, and refer the inquirers to the *Journal*, advising them to subscribe for it forthwith."—W. F. POOLE, Chicago Public Library.

"Bookbuyers and students everywhere ought to subscribe to the *Journal*, if only for the sake of this new feature [the Index to Periodicals]."—*Nation*.

LIBRARIES AND READERS.

Chapters of suggestion and counsel on the subject of reading, the use of books and of libraries. By WILLIAM E. FOSTER, Librarian of the Providence Public Library, and compiler of the "Monthly Reference Lists." 16mo, cloth, 50 cents.

Contents.—Some Hints on Right Reading; Correction of Aimless Reading; The Specializing of Reading, for General Readers; "Current Literature," and "Standard Literature;" Securing the Interest of a Community; "What may be Done at Home; How to Use a Library; Books, etc., on Reading.

"Full of valuable suggestion and shrewd, wise counsel."—*Boston Commonwealth*.

"Full of good sense, begotten of zeal and experience. It should be placed in every school library."—*Boston Advertiser*.

"Should be in the hands of every one who wishes to make reading a means of culture as well as of entertainment. Not a few librarians can find in it suggestions which if followed will greatly inure to the benefit of the public they serve."—*Good Literature*.

"Mr. Foster's aim is to show how the aimless reader of the ordinary public library, the man or woman who 'wants a book,' but does not know what book, or even what sort of book, may be led to take a lively interest in books and the library. Here Mr. Foster speaks as one having authority, because in doing this very thing he has been most successful. His little book is to be recommended in the highest manner to all who seek to improve the quality of their reading, or who desire to give aid and advice to others."—*Critic*.

"No one, with limited resources, has done more to turn to account the collection under his charge, or shown greater activity and ingenuity in devising ways and means to stimulate reading, study, and research, and guide them in the proper direction. His chapters are valuable as exhibiting phase after phase of his perception of the conditions under which public libraries are now used, and found to be of service, by widely differing classes of the community. They are all sound, practical, and suggestive, and will benefit parents, their elder children, and the author's fellow-librarians about equally."—*Nation*.

LIBRARIES AND SCHOOLS.

Papers selected by SAMUEL S. GREEN, Librarian of the Free Public Library, Worcester, Mass. 16mo, cloth, 50 cents.

Addresses and papers which have done much to convince teachers that important aid may be had in their work, by making a large use of libraries; and giving accounts of successful experiments made in different places, by librarians and teachers, in bringing about a use of libraries which has proved valuable to schools.

Contents.—The Public Library and the Public Schools, by Charles Francis Adams, Jr.; The Relation of the Public Library to the Schools, by Samuel S. Green; Libraries as Educational Institutions, by Samuel S. Green; The Public Library as an Auxiliary to the Public Schools, by Robert C. Metcalf; The Relation of Libraries to the School System, by William E. Foster; A Plan of Systematic Training in Reading at School, by William E. Foster.

"All of these papers deserve and will no doubt receive thoughtful consideration."—*Critic*.

"Librarians and teachers everywhere who consult this little volume will close it with a sense of indebtedness."—*Nation*.

"Abounds in practical suggestions, and every school-teacher ought promptly to make its acquaintance."—*Christian Register*.

"Nothing could be better than the suggestions which the book contains for facilitating the steps of young scholars to the libraries."—*Boston Advertiser*.

"The special value of these papers is that they not only show what might be done, but tell what has been done. Teachers who recognize the truth that they owe something to their pupils beyond mere listening to routine recitations, and librarians who have a higher view of their duties than that which regards them as purely clerical, will find practical suggestions and accounts of successful experiments in bringing about the use of the libraries by the schools."—*Good Literature*.

Roget's Thesaurus of English Words and Phrases. A work whose value has been tested by nearly thirty years of use in the literary world. For writers of all kinds, even if nothing more than letter-writers, it is second only to the dictionary in importance. Its arrangement of words is at once simple and systematic, no time must be lost in studying it, and a full index enables one to find what he wants at a glance. Over 200 pages and 30,000 additions to the original work. Crown 8vo, nearly 800 pages, \$2. The same with Dennison Patent Index, \$3.

31 and 33 Park Row, New York.

"The two volumes, 1881-82, of the Providence Library's *Monthly Reference Lists* . . . are a welcome addition to the endless variety of indexes. They can be used in connection with any good public or private library."—*The Nation*, January 18, 1883.

"Most thoroughly and carefully selected, embracing a wide range from the best German authorities to the latest articles in current literature."—*New England Journal of Education*, April 21, 1881.

"Any teacher with advanced pupils, desirous of training students in habits of investigation, could scarcely do better than supply these lists as texts for composition."—*Springfield Daily Republican*, April 22, 1881.

" . . . The most noticeable and perhaps the most valuable feature of Mr. Foster's reference lists is the topical subdivision of the main subject. For a student or teacher, the 'structural bibliography' is much more valuable and suggestive than a long list of authorities, which, in some cases, would be hardly better than a catalogue."—HERBERT B. ADAMS, Johns Hopkins University, Baltimore, in the *N. E. Hist. and Gen. Register*, Jan., 1883.

BOOKS FOR THE YOUNG.

A Guide for Parents and Children, compiled by C. M. HEWINS, Librarian of Hartford Library Association. Price in paper, 25 cents.

"Meets most admirably the demand for carefully selected lists, and contains valuable and interesting counsel."—W. E. FOSTER.

"Contains an admirable selection of books for children, and by far the best catalogue of books of this kind that has ever appeared."—S. S. GREEN.

"Miss C. M. Hewins, of Hartford, has long been known to all who are interested in making the public library the ally of the public schools, as one of the most successful of modern librarians of the American school. . . . A book which it is difficult to praise too highly."—*Critic*.

"Deserves more extended praise than we have space for. It will bring joy to the hearts of hundreds of parents, whose confidence in the compiler's judgment will be assured by her prefatory remarks and directions, and her choice extracts from divers authorities on the true aim and criterion of juvenile literature."—*Nation*.

"When Mr. Charles Dudley Warner says that 'the young who read at all read nothing but trash,' he does not exaggerate so very much. For them [the parents], as well as for librarians and teachers, the book will serve an excellent purpose, for it is far the best guide that has been printed, and there is nothing in it that is not of excellent and interesting in quality."—*Boston Transcript*.

"A little manual long needed, and one that will be heartily welcomed by parents who recognize the importance of carefully supervising their children's reading, but are often confused and at a loss on account of the multitude of works for the young now published, of every conceivable degree of merit and demerit. A classified list of good books is given, with indications as to the age and sex to which they are best suited. The list is prefaced by hints as to how children should be taught the right use of books, a note on good reading in English and American history for children, and a 'symposium' on children's books, containing interesting extracts from many sources. Miss Hewins has charge of the department 'Literature for the Young' in the *Library Journal*, is librarian of the Hartford Library, and may safely be accepted as an authority and guide by parents and buyers of children's books."—*Good Literature*.
